

PROFILE

Dedicated software engineer with graduate level experience in networking, web development, and android apk creation. I'm eager to work for your organization and provide innovative business solutions for your IT and software development requirements. With my CCNA certification and other credentials, I am well-versed in networking and can meet any networking requirements.

I am an adaptable and reliable graduate seeking for an entry level position in your company. I'm very sociable and have a good communication skill. I am open to learn new things and act on it. I am a mature team player who can adapt to any challenging situation. I can work well in a team setting as well as on my own initiative.
